MEMORANDUM TO: MCCSS-funded Transfer Payment Recipients (TPRs) and Children's residential licensees that provide Services and Supports in Congregate Settings

FROM: Karen Singh
Director, Central Region

SUBJECT: **NOTICE OF CORRECTION - Updated MCCSS Guidance for Congregate Living Settings**

A correction has been made to the **COVID-19 Guidance for MCCSS-funded and Licensed Congregate Living Settings (July 2021)** that was issued on July 15, 2021.

The correction can be found in **Section 2: Visitors to the congregate living setting**, under the heading **Eye Protection**. Specifically, the reference to use of eye protection "in an enclosed space like a vehicle" has been removed.

The revised guidance document has been attached for your reference. The ministry website has also been updated.

Please share this communication broadly with any/all providers that your organization contracts/sub-contracts with to provide supports in a congregate setting.

As a reminder, please continue to share up to date information about your visitor and absence policies with families and friends of your residents.

If you have any questions or concerns, please contact your MCCSS program supervisor or ministry contact.

Sincerely,

Karen Singh
Director, Central Region
